Attend site and found door closed and no way to get in as keypad code not working Used car jack to jack up door to get in side. Found everything with door working normal Found a book on how to change code for keypad. Re set code to 6602 as it was before. Test key pad and working fine I believe someone changed code on keypad without telling anyone 1130-1215	1.00	212.50	10%	212.50
