assess roller shutter with ATA access. Pro motor cannot find a fault with the door. The door works up and down fine stopping at the bottom and stopping at the top. The door does not roll open again automatically unless you engage your remote control or hit the up button I think the problem lies with someone's remote. Their button might be stuck on or the access control intercom system may be faulty. 1-45 - 1-55	1.00	195.00	10%	195.00
