ABRIL BROOKVALE				
Hey Jayme/Dom Tech went to Warringah as discussed this morning. Looking from outside – LHS Cupboard door is out of whack. Bottom pin is fine but the cupboard door sticks out further at the top than the bottom/isn't plumb/is warped (something going on there). Post was straight the way we had drilled it off (before the cupboard door went on) but the whacky door meant it couldn't be pushed close enough at the top to get it into the hole. He has re-drilled a new hole for them. Middle locks – no problem. Added handles. Showed them how to use it. RHS – theres no cupboard there? The door locks fine but they have nothing to push it up to so the top of the door can move around and without a cupboard to give them an idea of where they are aiming its hard to find the hole. Pics and sign off attached Kind Regards Ana Jackson	1.00	450.00	10%	450.00
