Job Details

Job Title: WO | Motor Repair Inspection
Job ID: 163274
Job Description: Please attend site to quote on the repair of the motor (see below)

After speaking with kylie regarding the garage door at mosman I suggested that we attend site service the door to check where the noise is coming from and also come up with alternative solutions if it is a motor noise as there are better options available than the current grifco motor that is installed. The cost of this would be $195 plus gst and would give us a better understanding of whats wrong.

Otherwise we could price to change the existing motor with a new one the same for a cost of $2150 plus gst
