Description of work

Garage door not closing

****IMPORTANT! Please send any updates regarding this work order to Epping.ASMgroup@bcssm.com.au****

There is something wrong with the gate, it is not closing properly, leaving a big gap at the bottom. Also one night it's not rolling down, when it almost reached the bottom, it rolled back up again, back and forth. We had to cover the sensor to let it up all night. Then it's fine next morning.

We need the garage door to be fixed with no gap left when closing, it's happened previously 3 or 4 months ago, we called the service, but now same problem happened.
