Work Order Details

WWC Notes
Hi Team,
Please attend and carry out trade report on rear elevation roller gate.
Thank you.

Please attend site to complete a detailed causation report and quote to repair, ensuring you include the following in your report:
- A clear description of the cause of the damage and an indication of how long this has been occurring
- Please report back to WWC immediately if you identify any further reporting is required to determine the cause of damage, for example and leak detection report performed by a plumber or a specialist roof report
- Any maintenance related issues including the overall condition of the property
- Any design issues which may have contributed to the cause of the damage or ongoing damage
- A recommended scope to repair the damage
- A quote for repairs or replacements based on your report (as a separate document)
- Extensive photos clearly labelled, including a photo of the front of the property
- Details of any specialist reports you deem may be required to determine the cause of the damage
- Photos of safety equipment used if relevant
